

Community Points

Community Points also referred to as "**CP**" are collectable points that are granted by the community hub to a User either through accomplishing tasks, interaction with the hub or through other future functionalities.

Your Community Points (CP) are visible to other Users in the community hub at any time.

Community Points are what ultimately decides over your rank in the community hub. High amounts of community points relative to other User gives you a higher rank.

A higher rank in the community hub grants you benefits, for example bigger rewards in community campaigns.

- **Base-Points:**
- Important Requirements:
 - Collection of points start with the release of Community Hub
 - Prevent that one can collect points from posts that are far in the past. Create a 3 days participation window. (you see the posts you missed)
 - People who shared and like posts of MADANA **before** the launch of the community hub receive their respective points as soon as they join the community hub. (we may even pm them)
 - To incentivize following us on the channels the features of sharing and liking posts unlock only after you follow us. (on telegram you receive your unique referral link)
 - Only **MADANA Points** are visible to the public, not the separated parts it is composed of (Ranking).
- Sum of Points from:
 - Facebook (Likes, Shares, Follow our Page)
 - Like 100P; Share 200P; Follow Page 1000P.
 - Twitter (Likes, Shares, Follow our Page)
 - Like 100P; Share 200P; Follow Page 1000P.
 - Telegram
 - Follow 1000P; Invite Friend 1000P.
 - Rather
 - Share on Twitter 500P; Share on Facebook 500P.
